## Nanoksia Disinfectant Solution

A revolutionarily innovation using Nano Technology molecules.

### What is Nanoksia?

Nanoksia is a water and plant-based solution that guarantees protection against viruses (COVID-19, H1N1, H7N9, Ebola, HIV, SARS, MERS), bacteria, fungi and other pathogens, proven by international laboratories

### How does Nanoksia work?

Nanoksia uses a semi-permanent NANO scale layer of SiO<sub>2</sub> (better known as Liquid Glass).

This layer holds within it, anti-pathogen agents, which are slowly released while the surface is in place (up to 90 days).

Our product is used world-wide in Airplanes, Hospitals, Hotels, etc. It is governmental approved and non-toxic.

## DISINFECTION SANITIZATION CLEANING

As part of our ongoing efforts to help fight the covid-19 virus, All Events Services have added another service to what we provide. The new AES disinfection sanitization cleaning facility offers a comprehensive cleaning service for various applications, where there is a high chance of human contact with surfaces.

Nanoksia disinfectant cleaning is ideal for:

- PROPERTIES - **VILLAS, APARTMENTS, OFFICES, COMMERCIAL, RESTAURANTS, HOTELS, SCHOOLS**
- TRANSPORT - **BUSES, CARS, TAXIS, TOUR BUSES, HOTEL/GOLF BUGGIES, BOATS, YACHTS**
- VENUES - **EXHIBITION HALLS, CONCERTS SPACES, CINEMAS, BARS, NIGHT CLUBS**

Using the Nanoksia product, which kills 99,999% of all microorganisms, bacteria and viruses **(including the present Covid-19 virus)**, AES will provide a sanitization cleaning service that will disinfect your property, vehicle or venue and protect those who use it.

AES Cleaning service is available - Daily (for areas of high footfall - taxis/buses etc)

Weekly (ideal for residential, office, commercial properties etc)

To book AES disinfection sanitization cleaning service or to receive more information on the service AES provide, please contact:
