SERVICES

All Events Services are thrilled to introduce the arrival of the AES Doxa Stage to the MENA region, this stage embodies excellence in design, performance, and innovation.

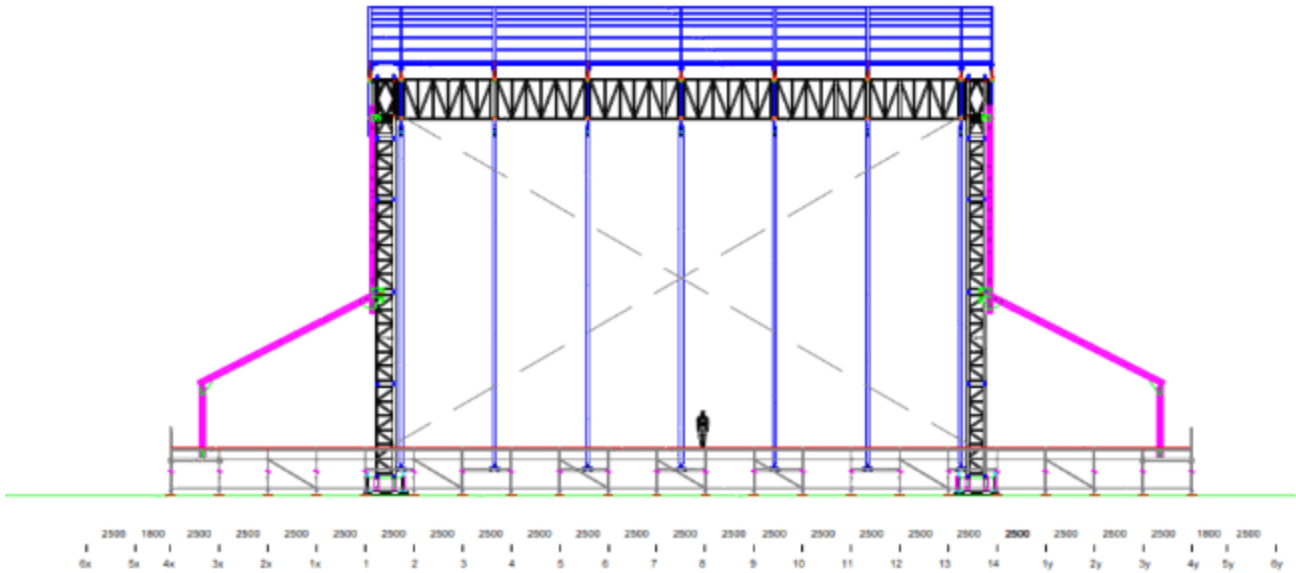

Introducing the AES DOXA Stage

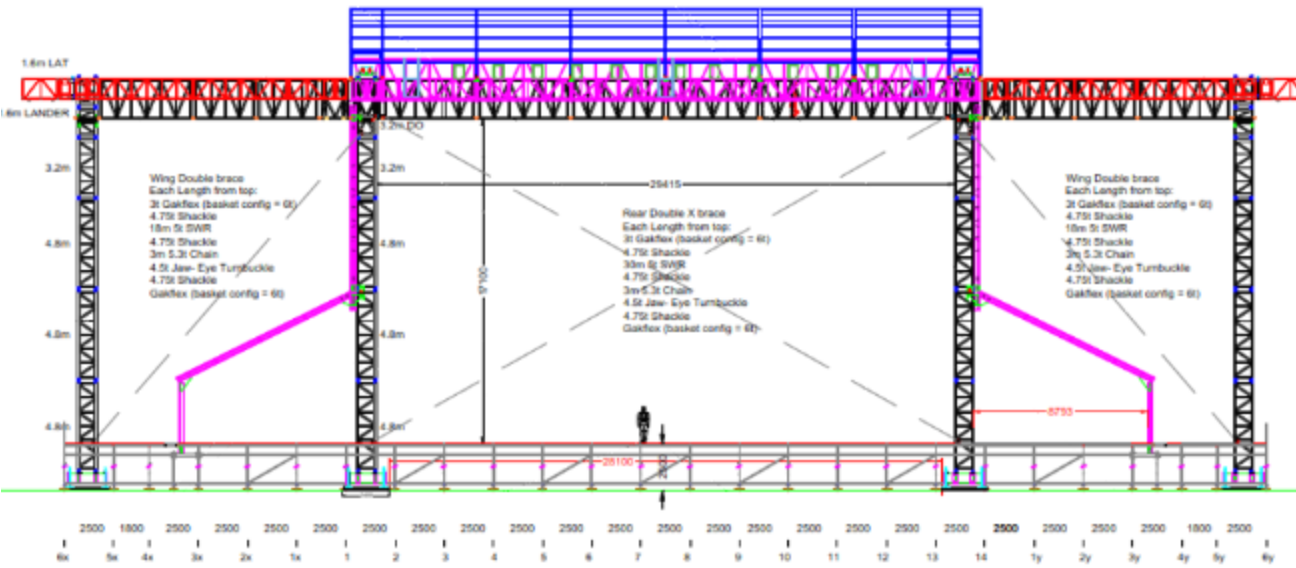

All Events Services are proud to unveil the AES DOXA Stage, a game-changing addition to event staging in the MENA region. True to its name - DOXA, meaning glory, honor, and splendor - this stage embodies excellence in design, performance, and innovation.

With an impressive 17.10m roof height, the AES DOXA Stage offers breathtaking vertical space for awe-inspiring productions. Its spacious 29.415m x 22.50m performance area provides the perfect platform for world-class performances, while the up to 80-ton UDL rigging capacity ensures even the most ambitious stage setups can be realised with ease.

Built to the highest safety standards with advanced wind load management, the AES DOXA Stage is more than just a structure - it's a spectacle of glory, a foundation of honor, and a stage for splendor.
